- Wellness & Spa
- Airports

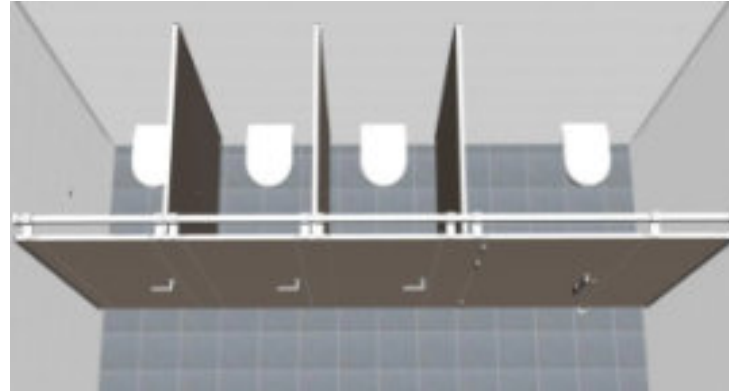

Available Configurations

Floating effect with recessed headrail

Floating-effect with recessed pedestals and recessed satin anodized aluminum headrail

Maximum overall height (top of panel): 2135 mm (84") (upper edge glass), incl. 100 mm under panel clearance.
Clear passage height: 2163 mm (85 ⁵/₃₂).

Standard Features

Fixing elements in aluminium:

- Partition and side panels are furnished with solid aluminum partition holders. The front panels are furnished with solid aluminum clamping holders on the upper edge.
- All screw connections are done with special glass screws.

Sturdy 3-roll hinges with soft-close function:

- Impossible to unhinge with individually adjustable closing force made from aluminum (for a pleasant quiet closing of the door), satin anodized.
- The hinges have been tested and ensure a minimum of 200,000 door openings.

Single-handed turning door knob:

- Made of aluminum with WC-lock on the inside, and indicator red/white with emergency release on the outside.

Pedestals:

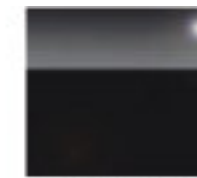

- Screwed to floor supporting legs (Ø 20 mm) invisibly and steplessly adjustable in height (+25mm/-5mm, to be able to respond to declining floors), made of satin anodised aluminium.
- Stainless steel core and stainless-steel floor plate as well as solid cover sleeve made of aluminium. The connection to the partition holders is accomplished with M12 threaded bolts for maximum stability.
