

Washroom partition system

PRIMO F

Partition system **PRIMO F**

30 mm laminated composite panels with PVC frame faced with 3 mm thick SGL

	PRIMO F
Core material	Styrofoam
Finish	Laminate
Panel thickness (front)	30 mm (1 3/16")
Panel thickness (dividers)	30 mm (1 3/16")
Max. overall height (without transom)	2300 mm (90")
Rebated doors	✓
Flush front design	✓

RECOMMENDED AREAS OF APPLICATION

Education Sport & Fitness Pools Wellness & Spa Shopping malls Hotels Restaurants High-class office buildings

Design option: **Bi-Color**

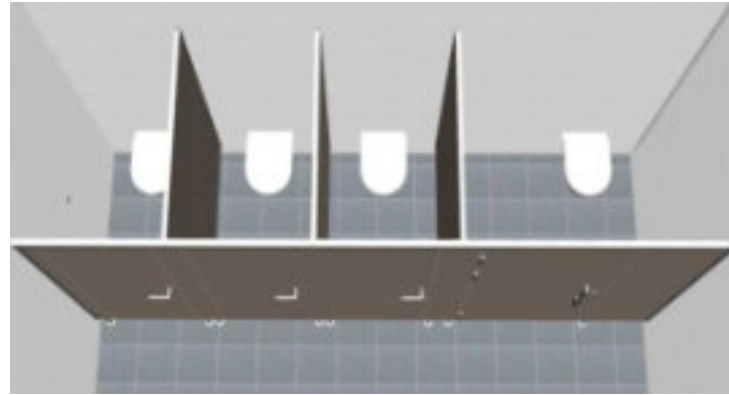

- Differentiation between **the exterior and interior decor of the cubicle** (i.e., exterior face with wood decor and inside white).
- Craft a **refined contrast** by enhancing **eye-catching decors** on the outside, while keeping a **brighter ambiance** inside the cubicle
- **Option without upcharge** (out of special colors or decors) and possible for all configurations

Available configurations

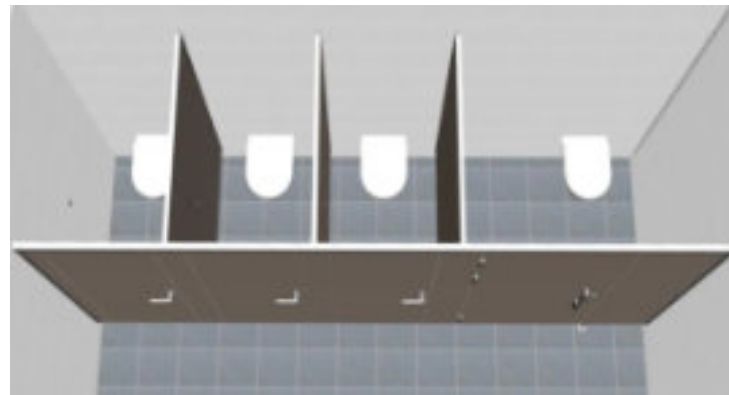

Standard configuration

Floor mounted with pedestals under front pilasters and overhead braced satin anodized aluminum headrail
Maximum overall height (top of headrail): 2300 mm (90") including 80-215 mm (3" to 8 ½") floor clearance
(possible height up to 3000 mm (118") with continuous transom panels above the headrail)

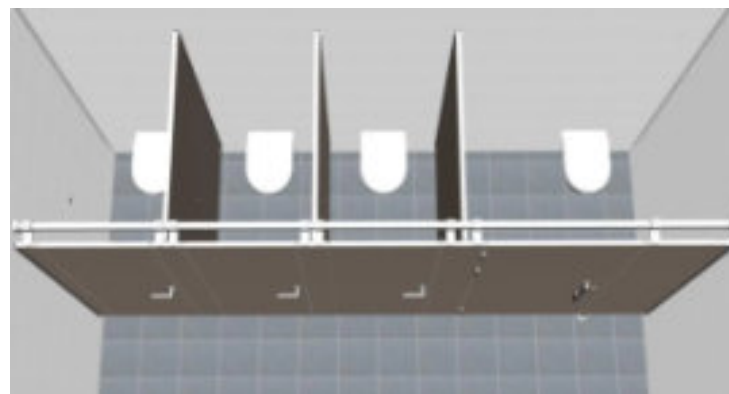

Floating effect (only recessed pedestals)

Floor mounted with recessed pedestals under partitional walls and overhead braced satin anodized aluminum headrail
Maximum overall height (top of headrail): 2300 mm (90") including 80-215 mm (3" to 8 ½") floor clearance

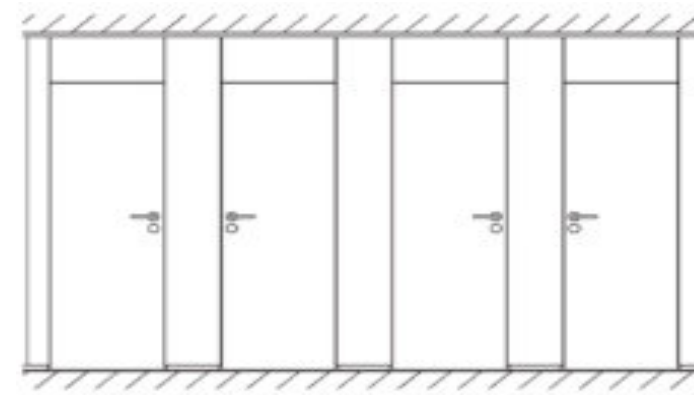

Floating effect with recessed headrail

Floating-effect with recessed pedestals and recessed satin anodized aluminum headrail
Maximum overall height (top of panel): 2135 mm (84") including 80-180 mm (3" to 7") floor clearance

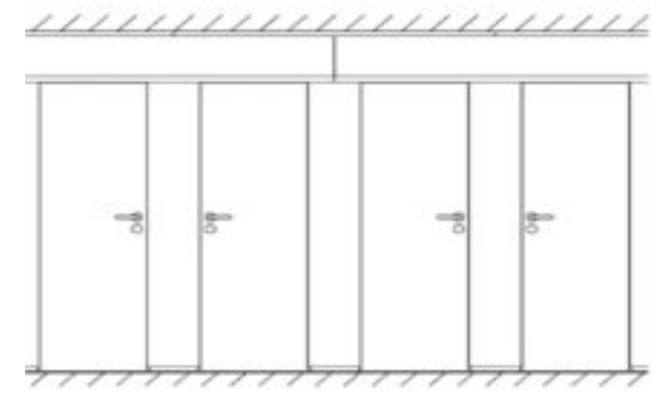

Floor-to-ceiling

Maximum overall height: 2800 mm (110") without floor clearance and with transom panel from 2100 mm (82 ½")

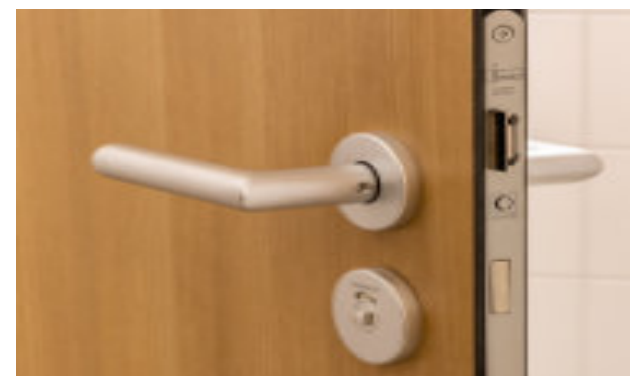

With transom panel above the doors

With continuous transom panel
(possible height up to 3000 mm)

Other configurations possible under request and technical feasibility

Configuration **floor-to-ceiling with transom panel** above the doors, L-shaped door handle in aluminum and wood decor

Standard features

Wall connections via U-profiles to allow for construction tolerances:

- Made of satin anodized aluminum and rounded for safety reasons (radius 2 mm)
- Torsion resistant, flush headrail 43/42 mm above the door

3-roller edge spring hinges:

- Made of aluminum (20 mm in diameter, length 145 mm) with a maintenance free stainless-steel center
- Hinges are non-detachable, fastened with six screws and come with a stainless-steel pin for self-closing doors

L-shaped door handle and turning lock:

- Made of aluminum with square emergency lock release, locking status visible inside and outside
- Double-latch lock with metal latch and metal whisper trap for silently closing door

Pedestals:

- Made of anodized aluminum (20 mm) with a stainless-steel 304 foot plate, infinitely adjustable, firmly screwed onto the cubicle elements using a M12 thread
- The solid, corrosion-free aluminum covering rosette can be easily lifted for cleaning purposes

Special option: PRIMO F KEMlight

- The special **KEMlight option with LED occupancy indicator** is an absolute visual highlight in the design of the washroom and offers the user the possibility of **being able to distinguish between a free and occupied cubicle** at a glance. The **feel-safe indicator** shows the user the locking status from inside.
- You can conveniently **control the LED display through an app**, enabling easy and personalized adjustments. This includes intuitive energy-saving settings, like synchronizing lighting with the building's opening hours, making management straightforward.
- The **power connection** is made by using a simple 220V Euro plug, which is conveniently connected inside, at the level of the headrail and the pilaster fixed to the wall.

Optional features

Wall connections via **shadow gap** made of satin anodized aluminum

3-roller edge spring hinges made of **stainless steel**

Sturdy 3-roll hinges with **soft-close function**
(only with aluminum hinges, and single latch lock for door knob or grip bar)

Pivot system for doors
(only for inwards opening doors)

Pedestals made entirely of **stainless steel**

L-shaped door handle made of **stainless steel**

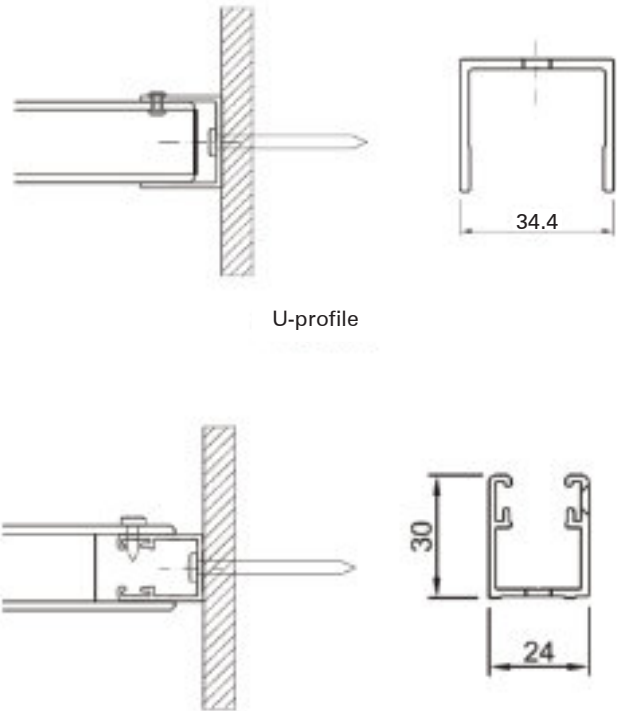

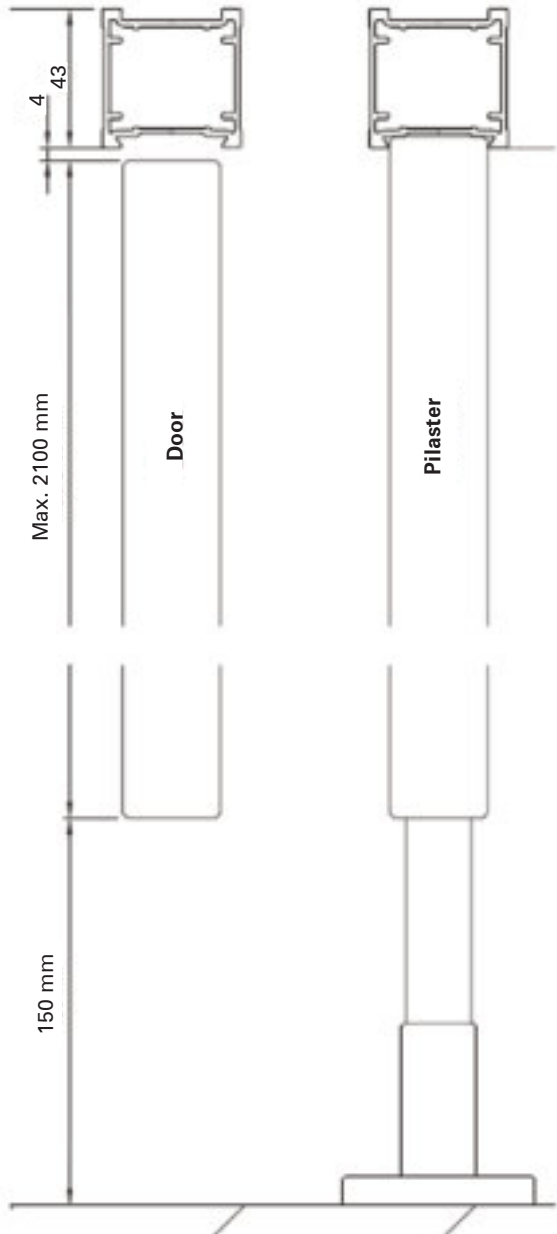

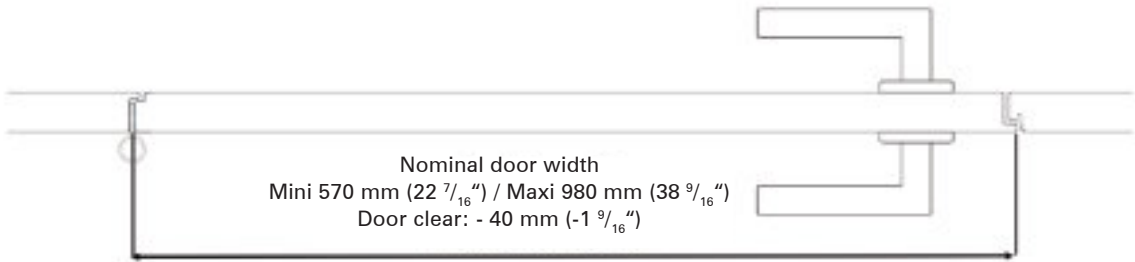

Door knob made of **aluminum**

Grip bar GS 40 with **LED-indicator**

- Other available door hardware:
- Nylon knobs
 - Aluminum knobs
 - Stainless steel knobs
 - Nylon lever handle U-shaped
 - Aluminum door handle U-shaped
 - Stainless steel door handle L-shaped
 - Stainless steel door handle U-shaped
 - Aluminum Grip bar GS 25 - 400 mm
 - Aluminum Grip bar GS 25 - 800 mm
 - Aluminum Grip bar GS 40 - 430 mm
 - Aluminum Grip bar GS 40 - 430 mm with LED-indicator
 - Aluminum Grip bar GS 40 - 1165 mm
 - Aluminum Grip bar GS 40 - 1165 mm with LED-indicator
 - Aluminum Grip bar GS 40 - 1300 mm
 - Aluminum Grip bar GS 40 - 1300 mm with LED-indicator
 - Bespoke door hardware under request

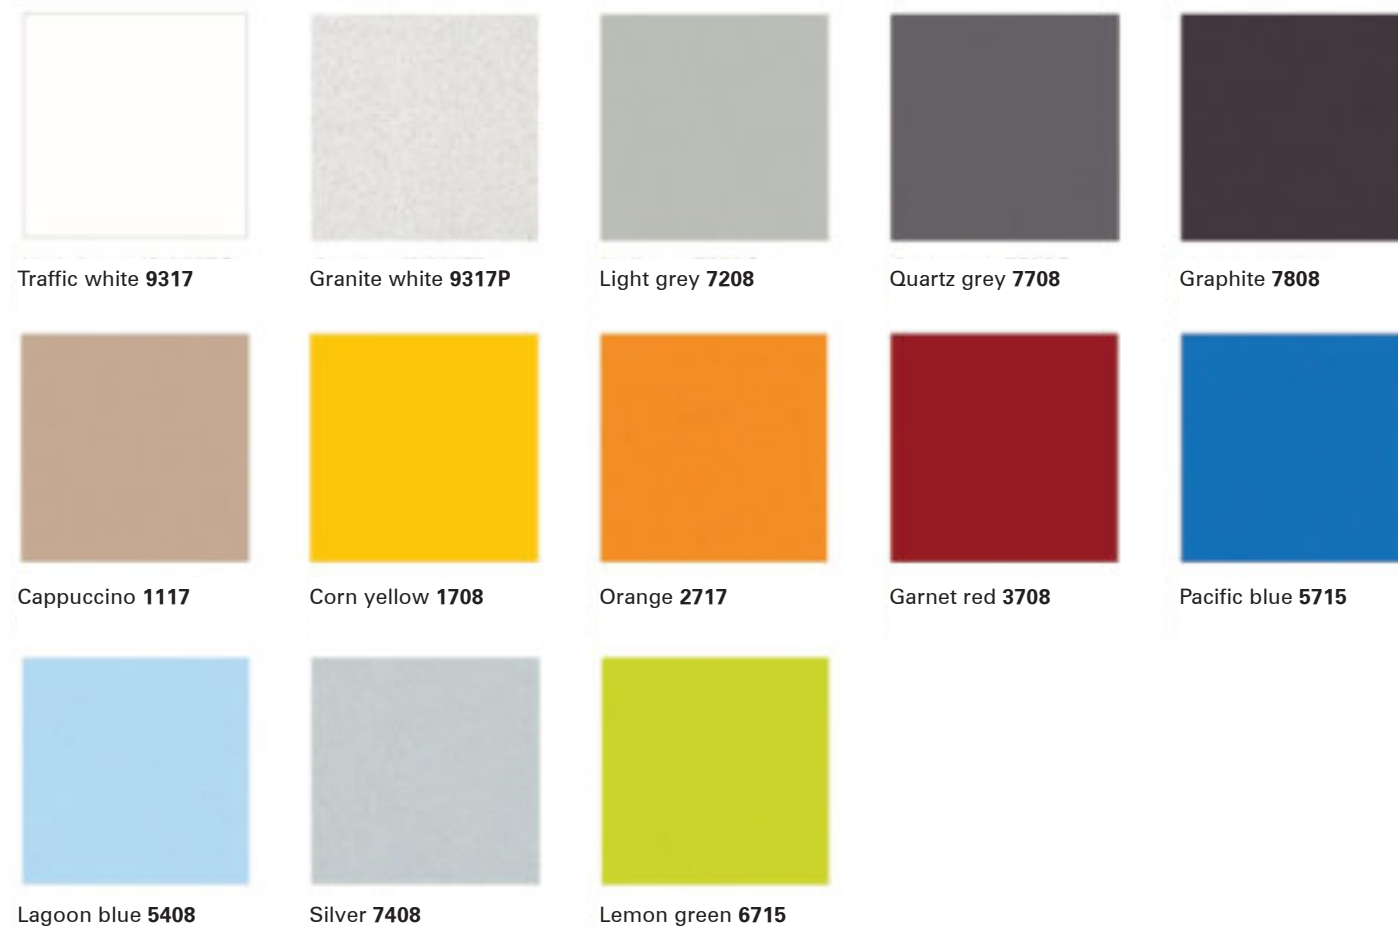

Width	Mini	Maxi
Door	570 mm (22 7/16")	980 mm (38 9/16")
Wall connected pilaster	50 mm (1 15/16")	1600 mm (63")
Pilaster	180 mm (7 1/16")	1590 mm (62 5/8")
